PUBLIC HEALTH ACT 1990

Received Royal Assent: 19 June 1990
Passed: 19 June 1990
Commenced: 19 September 1990

AN ACT to replace with new provisions various enactments relating to the protection of the public health; and for connected purposes.

GENERAL NOTE: The maximum fines in this Act are as increased by the *Criminal Justice (Penalties, Etc.) Act 1993* s 1.

PART I – NUISANCES AND OFFENSIVE TRADES

Statutory nuisances

1 Statutory nuisances

[P1936/49/91, 92 and 101; P1974/40/57 and 58]

- (1) It shall be the duty of every local authority to cause its district to be inspected from time to time by an authorised officer or officers for the detection of matters requiring to be dealt with under this Part as being statutory nuisances.
- (2) The following matters are statutory nuisances –
 - (a) any premises in such a state as to be prejudicial to health or a nuisance;
 - (b) any pool, ditch, gutter, watercourse, privy, urinal, cesspool, septic tank, drain or ashpit or other receptacle for waste matter so foul or in such a state as to be prejudicial to health or a nuisance;
 - (c) any house or part of a house so overcrowded as to be prejudicial to the health of the occupiers, whether or not members of the same family;
 - (d) any animal or bird kept in such a place or manner as to be prejudicial to health or a nuisance;

- (e) any accumulation or deposit, or any dead animal or bird, which is prejudicial to health or a nuisance;
- (f) any dust or effluvia caused by any trade or trade process and being prejudicial to health or a nuisance;
- (g) any smoke emitted in such quantity, or of such density or content, as to be a nuisance;
- (h) any other matter declared by this or any other enactment to be a statutory nuisance.

2 Abatement of statutory nuisance

[P1936/49/93; P1974/40/58]

- (1) Where a local authority is satisfied that a statutory nuisance exists or is likely to occur or recur, the authority shall serve a notice (an “abatement notice”) imposing all or any of the following requirements —
 - (a) requiring the abatement of the nuisance or prohibiting or restricting its occurrence or recurrence;
 - (b) requiring the execution of such works, and the taking of such other steps, as may be necessary for the purpose of the notice or as may be specified in the notice;and the notice shall specify the time or times within which its requirements are to be complied with.
- (2) An abatement notice shall be served —
 - (a) on the person responsible for the nuisance; or
 - (b) if that person cannot be found, on the occupier of the premises on which the nuisance arises or would arise; or
 - (c) if the nuisance arises from a defect of a structural character, or if the occupier of the premises cannot be found, on the owner of the premises.
- (3) Where a statutory nuisance, in the opinion of the local authority, renders a building unfit for human habitation, an abatement notice in respect of the nuisance may prohibit the use of the building for that purpose until the authority is satisfied that it has been rendered fit for that purpose and withdraws the prohibition.
- (4) Any person aggrieved by the refusal of the local authority to withdraw a prohibition contained in an abatement notice by virtue of subsection (3) may appeal to a court of summary jurisdiction.
- (5) Any person who, knowing that a prohibition under subsection (3) applies to a building, uses the building in contravention of the prohibition, shall be guilty of an offence.
- (6) If it appears to the local authority, in relation to any statutory nuisance which exists or is likely to occur or recur, that no such person as is

mentioned in subsection (2)(a), (b) or (c) can be found, the authority may execute such works as appear to it to be necessary to abate the nuisance or to prevent its occurrence or recurrence, and may recover from any such person any expenses reasonably incurred by it in so doing.

- (7) Subject to subsection (8), in proceedings to recover expenses under this section the High Court may enquire whether the expenses ought to be borne wholly or in part by a person other than the defendant, and may make such order concerning the expenses or their apportionment as appears to the court to be just.
- (8) The High Court shall not order the expenses or any part of them to be borne by any person other than the defendant in the proceedings unless the court is satisfied that that other person has had due notice of the proceedings and an opportunity to be heard.

3 Nuisance orders

[P1936/49/94]

- (1) If a person on whom an abatement notice has been served fails to comply with the requirements of the notice, the authority shall cause a complaint to be made to a justice, who shall issue a summons requiring the person on whom the notice was served to appear before a court of summary jurisdiction.
- (2) If on the hearing of the complaint it is proved that the alleged nuisance exists or is likely to occur or recur, the court shall, subject to section 4, make an order (a “nuisance order”) for either or both of the following purposes —
 - (a) requiring the defendant to comply with all or any of the requirements of the notice within the time specified in the order, or otherwise to abate the nuisance;
 - (b) prohibiting the occurrence or recurrence of the nuisance;
- (3) If the court is satisfied —
 - (a) that the defendant failed without reasonable excuse to comply with the requirements of the abatement notice, and
 - (b) that those requirements, and the time within which they were to be complied with, were not unreasonable,

the court may, whether or not it also makes a nuisance order, impose on the defendant a fine not exceeding £2,500.

A fine imposed under this subsection shall be applied as a fine imposed by a criminal court.

- (4) If the court is satisfied that the alleged nuisance existed, or was likely to occur or recur, at the date of the complaint under subsection (1), whether or not it also makes a nuisance order, it may order the defendant to pay the costs of the local authority of and in connection with the proceedings.
- (5) If it appears to the court, in relation to any statutory nuisance which exists or is likely to occur or recur, that no such person as is mentioned in section 2(2)(a), (b) or (c) can be found, the nuisance order may be addressed to and executed by the local authority.
- (6) Any person who without reasonable excuse fails to comply with a nuisance order shall be guilty of an offence.

4 Defences

[P1936/49/94 (4) and (5); P1974/40/58(5)]

- (1) Where proceedings are brought under section 3 or 7 in respect of an accumulation or deposit, it shall be a defence to prove —
 - (a) that the accumulation or deposit is necessary for the effectual carrying on of a trade, and has not been kept longer than is necessary for the purpose of the trade; and
 - (b) that the best practicable means have been taken for preventing it from being prejudicial to health or a nuisance.
- (2) Where proceedings are brought under section 3 or 7 in respect of any dust or effluvia, or any smoke emitted from a chimney, it shall be a defence to prove that the best practicable means have been taken for preventing, or counteracting the effect of, the dust, effluvia or smoke.

5 Complaint by an individual

- (1) Any person aggrieved by a statutory nuisance may make a complaint to a justice, and, subject to subsection (2), the provisions of this Part shall have effect on such a complaint as they have effect on a complaint by a local authority under section 3(1).
- (2) A nuisance order made on a complaint under subsection (1) shall not be addressed to a local authority by virtue of section 3(5) unless the authority has had an opportunity of being heard in the proceedings.

6 Default powers

- (1) Where a nuisance order has not been complied with, the local authority may abate the nuisance and do whatever is necessary in execution of the order.
- (2) Any expenses reasonably incurred by a local authority in abating or preventing the occurrence or recurrence of a statutory nuisance in respect of which a nuisance order has been made may be recovered by the authority —

- (a) where the order was addressed to the authority, from the person responsible for the nuisance;
 - (b) otherwise, from the person on whom the order was made.
- (3) Section 2(7) and (8) applies to the recovery of expenses under this section as it applies to the recovery of expenses under section 2.

7 High Court proceedings

If in the case of any statutory nuisance a local authority is of the opinion that summary proceedings would afford an inadequate remedy, the authority may in its own name take proceedings in the High Court for securing the abatement of the nuisance, and the prohibition of its occurrence or recurrence, notwithstanding that the authority has suffered no damage from the nuisance.

8 Nuisance arising outside district

Where a nuisance within or affecting any part of the district of a local authority appears to be wholly or partly caused by some act or default committed or taking place outside its district, the authority may take action under this Part as if the act or default were committed or took place within its district.

9 Emergency measures

[P1984/55/76]

- (1) If it appears to a local authority —
- (a) that any premises are in such a state as to be prejudicial to health or a nuisance (a “defective state”), and
 - (b) that unreasonable delay in remedying the defective state would be occasioned by following the procedure under sections 2 to 7,
- the authority may serve on the person on whom it would have been appropriate to serve an abatement notice under section 2 (if the authority had proceeded under that section) a notice stating that the authority intend to remedy the defective state and specifying the defects that it intends to remedy.
- (2) Subject to subsection (3), the local authority may, after the expiration of 9 days after service of a notice under subsection (1), execute such works as may be necessary to remedy the defective state, and recover from the person on whom the notice was served the expenses reasonably incurred in so doing.
- (3) If, within 7 days after service of a notice under subsection (1), the person on whom the notice was served serves a counter-notice that he intends to remedy the defects specified in the first notice, the local authority shall take no action in pursuance of the first notice unless that person —
- (a) fails within what appears to the local authority to be a reasonable time to begin to execute works to remedy the defects, or

- (b) having begun to execute such works, fails to make such progress towards their completion as appears to the authority to be reasonable.
- (4) In proceedings to recover expenses under this section the High Court shall enquire —
 - (a) whether the local authority was justified in concluding that the premises were in a defective state, or that unreasonable delay in remedying the defective state would have been occasioned by following the procedure under sections 2 to 7, and
 - (b) if the defendant proves that he served a counter-notice under subsection (3), whether he failed to begin the works to remedy the defects within a reasonable time, or to make reasonable progress towards their completion.
- (5) If the court determines —
 - (a) that the local authority was not justified in either of the conclusions mentioned in subsection (4)(a), or
 - (b) that there was no failure under subsection (4)(b),the authority shall not recover the expenses or any part of them.
- (6) Section 2(7) and (8) applies to the recovery of expenses under this section as it applies to the recovery of expenses under section 2.
- (7) A local authority may exercise its powers under subsection (1) notwithstanding that it might instead have proceeded under section 4 (repair of insanitary house) of the *Housing Act 1955*.

10 Powers of the Department

- (1) Any function of a local authority under section 2, 3, 6, 7 or 9 may be exercised by the Department, but before exercising any such function under section 2, 3, 6 or 7 in any case the Department shall consult the local authority appearing to it to be concerned.
- (2) Nothing in this section enables a nuisance order to be addressed to the Department.

Noise abatement

11 Noise nuisances

- (1) Subject to subsections (2) and (3), sections 2 to 7 apply to noise amounting to a nuisance as they apply to a statutory nuisance, subject to the following modifications —
 - (a) for references to a local authority there shall be substituted references to the Department; and
 - (b) sections 3(5) and 4 shall be omitted.

- (2) In proceedings under section 3 or 7 as applied by this section in respect of noise caused in the course of a trade, it shall be a defence to prove that the best practicable means have been used for preventing, or counteracting the effect of, the noise.
- (3) The Department may by order provide that sections 2 to 7 shall not apply to noise emitted in such a manner, or in such circumstances, as may be specified in the order, or shall apply thereto subject to such exemptions or adaptations as may be so specified.

12 Control of noise on construction sites

[P1974/40/60]

- (1) This section applies to any of the following works —
 - (a) the erection, construction, alteration, repair or maintenance of buildings, structures or roads;
 - (b) breaking up, opening or boring under any road or adjacent land in connection with the construction, inspection, maintenance or removal of works;
 - (c) demolition or dredging work;
 - (d) any work of engineering construction (whether or not comprised in paragraph (a), (b) or (c)).
- (2) Where it appears to the Department that works to which this section applies are being, or are going to be, carried out on any premises, the Department may serve a notice imposing requirements as to the way in which the works are to be carried out, and may if it thinks fit publish notice of the requirements in such way as appears to the Department to be appropriate.
- (3) A notice under subsection (2) may in particular —
 - (a) specify the plant or machinery which is, or is not, to be used;
 - (b) specify the days on which, and the hours during which, the works may be carried out;
 - (c) specify the level of noise which may be emitted from the premises in question or at any specified point on those premises or which may be so emitted during specified hours; and
 - (d) provide for any change of circumstances.
- (4) In acting under this section the Department shall have regard —
 - (a) to the relevant provision of any code of practice relating to the control of noise and issued by any authority or body in the British Islands, which appears to the Department to be appropriate to the works in question;
 - (b) to the need for ensuring that the best practicable means are employed to minimise noise;

- (c) before specifying any particular methods or plant or machinery, to the desirability in the interests of any recipients of the notice in question of specifying other methods, plant or machinery which would be substantially as effective in minimising noise and which they may prefer to use;
 - (d) to the need to protect any persons in the locality in which the premises in question are situated from the effects of noise.
- (5) A notice under subsection (2) may —
- (a) specify the time within which the notice is to be complied with; and
 - (b) require the execution of such works, and the taking of such other steps, as may be necessary for the purpose of the notice or as may be specified therein.
- (6) A notice under subsection (2) shall be served on the person who appears to the Department to be carrying out or going to carry out the works, and on such other persons appearing to the Department to be responsible for, or to have control over, the carrying out of the works, as the Department thinks fit.
- (7) A person served with a notice under subsection (2) may appeal against the notice to a court of summary jurisdiction within 21 days from the service of the notice.
- (8) If a person on whom a notice under subsection (2) is served without reasonable excuse contravenes any requirement of the notice, he shall be guilty of an offence.

13 Prior consent to works on construction sites

[P1974/40/61]

- (1) A person intending to carry out works to which section 12 applies may apply to the Department for a consent under this section.
- (2) Where approval under building regulations is required for the carrying out of the works, the application under this section must be made at the same time as, or later than, the plans for the works are deposited with the building authority.¹
- (3) An application under this subsection shall contain particulars of —
 - (a) the works, and the method by which they are to be carried out; and
 - (b) the steps proposed to be taken to minimise noise resulting from the works.
- (4) If the Department considers that —
 - (a) the application contains sufficient information for the purpose, and

- (b) if the works are carried out in accordance with the application, it would not serve a notice under section 12 in respect of those works,
- the Department shall give its consent to the application.
- (5) In acting under this section the Department shall have regard to the considerations set out in section 12(4).
- (6) In acting under this section the Department may —
- (a) attach any conditions to a consent;
 - (b) limit or qualify a consent to allow for any change in circumstances; and
 - (c) limit the duration of a consent,
- and any person who knowingly carries out the works, or permits the works to be carried out, in contravention of any condition attached to a consent under this section shall be guilty of an offence.
- (7) The Department shall inform the applicant of its decision on the application within 28 days from receipt of the application; and if the Department gives its consent to the application it may if it thinks fit publish notice of the consent, and of the works to which it relates, in such way as appears to the Department to be appropriate.
- (8) If the Department —
- (a) does not give a consent within the said period of 28 days; or
 - (b) gives its consent within the said period of 28 days but attaches any condition to the consent or limits or qualifies the consent in any way,
- the applicant may appeal to a court of summary jurisdiction.
- (9) In any proceedings for an offence under section 12(8) it shall be a defence to prove that the alleged contravention amounted to the carrying out of the works in accordance with a consent given under this section.
- (10) A consent under this section shall contain a statement that it does not of itself constitute any ground of defence against any proceedings instituted under section 5 (as applied by section 11).
- (11) Where a consent has been given under this section and the works are carried out by a person other than the applicant for the consent, it shall be the duty of the applicant to take all reasonable steps to bring the consent to the notice of that other person; and if he fails to do so he shall be guilty of an offence.

14 Noise in streets

[P1974/40/62]

- (1) Subject to subsection (2) and (3), a loudspeaker shall not be operated in a street, or on any land or premises so as to give reasonable cause for annoyance to persons in a street, —
 - (a) between the hours of 9 p.m. and 8 a.m. for any purpose;
 - (b) at any time for the purpose of advertising any entertainment or trade.
- (2) Subsection (1) does not apply to the operation of a loudspeaker —
 - (a) for police, fire brigade or ambulance purposes, or by a local authority within its district;
 - (b) for communicating with persons on a vessel for the purpose of directing the movement of that or any other vessel;
 - (c) if the loudspeaker forms part of a public telecommunication system (within the meaning of the *Telecommunications Act 1984*);
 - (d) if the loudspeaker —
 - (i) is in or fixed to a vehicle, and
 - (ii) is operated solely for the entertainment of or for communicating with the driver of or a passenger in the vehicle, or (where the loudspeaker is or forms part of the horn or similar warning instrument of the vehicle) solely for giving warning to other traffic, and
 - (iii) is not so operated as to give reasonable cause for annoyance to persons in the vicinity;
 - (e) otherwise than on a highway, by persons employed in connection with a transport undertaking used by the public, where the loudspeaker is operated solely for making announcements to passengers or prospective passengers or to other persons so employed;
 - (f) on a road for the time being closed by an order under section 1 of the *Road Races Act 1982*, or on land adjacent to such a road, for purposes incidental to the race in respect of which the order is made; or
 - (g) in case of emergency.
- (3) Subsection (1)(b) does not apply to the operation of a loudspeaker between the hours of 12 noon and 7 p.m. if the loudspeaker —
 - (a) is fixed to a vehicle which is being used for the conveyance of a perishable commodity for human consumption; and

- (b) is operated solely for informing members of the public (otherwise than by means of words) that the commodity is on sale from the vehicle; and
 - (c) is not so operated as to give reasonable cause for annoyance to persons in the vicinity.
- (4) Any person who operates or permits the operation of a loudspeaker in contravention of subsection (1) shall be guilty of an offence.
- (5) In this section “street” means a highway and any other road, footway, square or court to which the public has access.

Offensive trades

15 Offensive trades

- (1) Any person who, without the consent of the Department, carries on or establishes an offensive trade on any premises shall be guilty of an offence.
- (2) A consent under subsection (1) may be given —
- (a) either without limit as to time, or for such limited period as may be specified in the consent; and
 - (b) either unconditionally, or subject to compliance with such conditions as may be so specified.
- (3) The Department may make regulations with respect to any offensive trade for the purpose of preventing or reducing any adverse effects of the trade on the amenities of the area in which it is established or carried on.
- (4) Section 7 applies to a contravention of subsection (1), or of regulations under subsection (3), as it applies to a statutory nuisance, with the substitution for references to the local authority of references to the Department.
- (5) The Department may by order provide, either generally or as respects any part of the Island specified in the order, that a trade specified in the order (not being a trade specified in Schedule 1) shall be an offensive trade for the purposes of this section.
- (6) In this section “offensive trade” means —
- (a) any trade specified in Schedule 1; and
 - (b) subject to the provisions of an order under subsection (5), any trade specified in such an order.

57 Prohibition of unlicensed disposal of waste

[P1974/40/3]

 - (b) use any plant or equipment, or cause or knowingly permit any plant or equipment to be used, for the purpose of disposing of controlled waste or of dealing in a prescribed manner with controlled waste,

unless the land on which the waste is deposited or, as the case may be, which forms the site of the plant or equipment is occupied by the holder of a licence issued in pursuance of section 59 (a “disposal licence”) which authorises the deposit or use in question, and the deposit or use is in accordance with the conditions, if any, specified in the licence.

- (2) Except in a case falling within subsection (3), a person who contravenes subsection (1) shall be guilty of an offence.
- (3) A person who contravenes subsection (1)(a) in a case where —
- (a) the waste in question is of a kind which is poisonous, noxious or polluting; and
 - (b) its presence on the land is likely to give rise to an environmental hazard; and
 - (c) it is deposited on the land in such circumstances or for such a period that whoever deposited it there may reasonably be assumed to have abandoned it there or to have brought it there

for the purpose of its being disposed of (whether by himself or others) as waste;

shall be guilty of an offence.

- (4) It shall be a defence for a person charged with an offence under this section to prove —
- (a) that he —
- (i) took care to inform himself, from persons who were in a position to provide the information, as to whether the deposit or use to which the charge relates would be in contravention of subsection (1), and
- (ii) did not know and had no reason to suppose that the information given to him was false or misleading and that the deposit or use might be in contravention of subsection (1); or
- (b) that he acted under instructions from his employer and neither knew nor had reason to suppose that the deposit or use was in contravention of subsection (1); or
- (c) in the case of an offence of making, causing, or permitting a deposit or use otherwise than in accordance with conditions specified in a disposal licence, that he took all such steps as were reasonably open to him to ensure that the conditions were complied with; or
- (d) that the acts specified in the charge were done in an emergency in order to avoid danger to the public and that, as soon as reasonably practicable after they were done, particulars of them were furnished to the Department.
- (5) Subject to subsection (6), where a person is charged with an offence under this section of making or causing a deposit on any land, he shall be convicted if it is proved that he had at some time been in possession or control of some or all of the waste in question.
- (6) Where subsection (5) applies, it shall be a defence for such a person to prove either —
- (a) that the deposit was made or caused by some other person; or
- (b) that he ceased to be in possession or control of the waste by delivering it to some other person (whether for the purpose of disposal or otherwise) or by its being taken against his will;

but he shall not be entitled to raise a defence under this subsection unless, before the beginning of the period of 7 days ending with the date when the hearing of the charge is begun, he serves on the prosecutor a notice identifying that other person (if any) and specifying the circumstances in which the waste was deposited, delivered or taken, as the case may be.

- (2) For the purposes of section 57(3) —
 - (a) the presence of waste on land gives rise to an environmental hazard if it has been deposited in such a manner or in such a quantity (whether by itself or cumulatively with other deposits of the same or different substances) as to subject persons or animals to a material risk of death, injury or impairment of health or as to threaten the pollution (whether on the surface or underground) of any water supply; and
 - (b) the fact that waste is deposited in containers shall not of itself be taken to exclude any risk which might be expected to arise if the waste were not in containers.
- (3) In the case of any deposit of waste, the degree of risk relevant for the purposes of subsection (2) shall be assessed with particular regard —
 - (a) to the measures, if any, taken by the person depositing the waste, or by the owner or occupier of the land, or by others, for minimising the risk; and
 - (b) to the likelihood of the waste, or any container in which it is deposited, being tampered with by children or others.

 - (a) an application for a disposal licence to be considered while an application for any relevant planning approval is pending; and
 - (b) any proceedings connected with either application to be conducted concurrently with any proceedings connected with the other application.³⁸
- (3) Where the Department receives an application for a disposal licence for a use of land, plant or equipment for which such planning approval is in force, the Department shall not reject the application unless the

Department is satisfied that its rejection is necessary for the purpose of preventing pollution of water or danger to public health.

- (4) Where the Department proposes to issue a disposal licence, it shall before it does so —
- (a) refer the proposal to the Water Authority and to any other prescribed person; and³⁹
 - (b) give public notice of the proposal in one or more newspapers published and circulating in the Island; and
 - (c) consider any representations about the proposal which it receives during the period of 21 days beginning with that on which the first such notice is published.

 - (h) the works to be carried out or other action to be taken, in connection with the land, plant or equipment to which the licence relates, before the activities authorised by the licence are begun, while they are continuing or after they have ceased;⁴⁰

and a condition may require the carrying out of works or the doing of any other thing which the Department considers appropriate in connection with the licence, notwithstanding that the licence holder is not entitled as of right to carry out the works or do the thing.

- (2) The Department shall –
 - (a) maintain a register containing copies of all disposal licences which are for the time being in force; and
 - (b) cause the register to be made available for inspection by the public at its office free of charge at all times when those offices are open to the public; and

61 Variation of conditions and revocation of licences

[P1974/40/7]

- (2) On the application of the holder of a disposal licence, the Department may serve a notice on him modifying the conditions specified in the licence in accordance with the application.
- (3) Subject to subsection (5), where it appears to the Department that any modification of the conditions specified in a disposal licence is required for the purpose of ensuring that the activities to which the licence relates do not cause pollution of water or danger to public health or become seriously detrimental to the amenities of the locality affected by the activities, the Department shall serve a notice on the licence holder modifying the conditions accordingly.
- (4) Section 59(4) applies to a proposal to serve a notice under subsection (1), (2) or (3) as it applies to a proposal to issue a disposal licence, except that the Department may postpone the reference and notice under section 59(4) so far as it considers that by reason of an emergency it ought to do so; and section 59(5) applies to an application under subsection (2) as it applies to an application for a disposal licence.
- (5) Where a disposal licence is in force and it appears to the Department –
 - (a) that the continuation of activities to which the licence relates would cause pollution of water or danger to public health, or would be so seriously detrimental to the amenities of the locality affected by the activities that the continuation of them ought not to be permitted; and

- (b) that the pollution, danger or detriment cannot be avoided by modifying the conditions specified in the licence;
- the Department shall by a notice served on the holder of the licence revoke the licence.
- (5A) Where a disposal licence is in force and it appears to the Department that any charges due to it under section 62A in respect of the licence are unpaid, the Department may by a notice served on the holder of the licence suspend the licence; and where a notice is served under this subsection the licence shall be of no effect until the notice is withdrawn under subsection (5B).⁴¹
- (5B) Where a notice has been served under subsection (5A) and the charges in question have been paid, the Department shall by a further notice served on the holder of the licence withdraw that notice.⁴²

- (3) The holder of a disposal licence may, with the consent in writing of the Department, by notice surrender the licence to the Department.⁴⁴
- (4) The Department shall not give its consent to the surrender of a disposal licence unless it is satisfied, after inspecting the land to which the licence relates and considering any information and evidence available to it (whether or not provided pursuant to subsection (5)), that it is unlikely that the condition of the land, so far as that condition is the result of the use of the land for the purpose of any activity relating to waste (whether or not in pursuance of the licence), will cause pollution of the environment or harm to human health.⁴⁵
- (5) Where an application is made to the Department for its consent to the surrender of a disposal licence —
- (a) the holder of the licence, and
- (b) any person (other than the holder of the licence) who is, or has been during the currency of the licence, the owner or occupier of the land to which the licence relates,

shall provide the Department with such information and evidence relating to the condition of the land, and any use of the land for the purpose of any the activity relating to waste (whether or not in pursuance of the licence), as the Department may reasonably require.⁴⁶

- (6) A person who —
- (a) fails without reasonable excuse to comply with a requirement under subsection (5), or

63 Supervision of licensed activities

[P1974/40/9]

- (1) While a disposal licence is in force the Department shall take the steps needed —

 - (b) for the purpose of ensuring that the conditions specified in the licence are complied with.

- (2) For the purpose of subsection (1), any authorised officer of the Department may, if it appears to him that by reason of an emergency it is necessary to do so, carry out work on the relevant land and on any plant or equipment to which the licence relates.
- (3) Where the Department incurs any expenditure under subsection (2), the Department may recover the amount of the expenditure from the holder of the disposal licence in question or, if the licence has been revoked or cancelled, from the last holder of it, except in relation to work with respect to which the holder or last holder of the licence shows that there was no emergency or that the expenditure was unnecessary.
- (4) Where it appears to the Department that a condition specified in a disposal licence is not being complied with, then, without prejudice to section 57(1), the Department may —

- (5) Where —
- (a) a disposal licence has been revoked or cancelled, and
 - (b) it appears to the Department that a condition specified in the licence has not been complied with, being a condition requiring works to be carried out or other action to be taken in connection with the land to which the licence relates after the activities authorised by the licence have ceased,
- the Department may serve on the owner or the occupier of the land a notice requiring him, within such time as is specified in the notice, to carry out such works or to take such other action as appears to the Department to be necessary to comply with the condition and is so specified.⁴⁹

 - (b) the use on land so occupied of any plant or equipment for the purpose of disposing of controlled waste or of dealing with controlled waste in a manner prescribed under section 57(1)(b),
- if the deposit is made or the plant or equipment is used by the Department of Infrastructure or is made or used with the consent of the

Department and in accordance with the conditions, if any, to which the consent is subject.⁵¹

 - (b) that the pollution, danger or detriment cannot be avoided by modifying the conditions relating to the carrying on of the activities,
- the Department shall rescind the direction and the Department of Infrastructure shall discontinue the activities.⁵⁵

 - (b) in general terms, where those measurements show that any level of concentration prescribed under subsection (1)(a) is persistently exceeded in any locality, the steps (if any) which it considers ought to be taken (whether by the Department or by any other person) to reduce the concentration of the substance in question to that level; and
 - (c) any proposals of the Department for making new or amending regulations under subsection (1).¹⁴⁰

- (3) A person served with a notice under subsection (2) may, within such time as may be prescribed by rules of court, appeal to the High Court on any of the following grounds —
 - (a) that the level of concentration of the prescribed substance, measured in accordance with regulations under section 88(1)(b), is significantly lower than as stated in the notice;

- (b) that the level of concentration of that substance, as stated in the notice, has not been measured in accordance with those regulations;
 - (c) that the activity in question does not cause or significantly contribute to the concentration of that substance;
 - (d) that the best practicable means (within the meaning of Part I) have been taken to reduce or mitigate the effect of the activity on the level of concentration of that substance in the air;
 - (e) that the steps required by the notice to be taken, or any of them, will not serve to reduce the concentration of the substance, or are otherwise unreasonable or unnecessary;
 - (f) that the time within which those steps, or any of them, are to be taken is not reasonably sufficient.
- (4) On an appeal under subsection (3) the High Court may confirm or quash the notice, or modify any requirement thereof.
- (5) Subject to any order made on appeal, any person who fails to comply with the requirements of a notice served on him under section (2) shall be guilty of an offence; and in proceedings against any person for an offence under this section it shall not be open to him to raise any question which he could have raised on an appeal under subsection (3).

- (7) If it appears to the Department that, in consequence of the coming into operation of regulations under section 88(1)(a) since the grant or any previous variation of a consent under this section, the carrying on of the activity permitted by the consent in accordance with the terms thereof will cause the permitted level of any prescribed substance to be exceeded in the locality of the land to which the consent relates, the Department may, after consultation with the occupier of the land —
- (a) revoke the consent, or
 - (b) vary the terms of the consent so as to secure that the activity will not cause that level to be exceeded.

- (4) An order under paragraph 1 (other than an order varying a previous order so as to exempt specified buildings or classes of building or specified fireplaces

Exemption of fireplaces

4. The Department may by order exempt any class of fireplace from the operation of this Schedule, subject to such conditions as may be specified in the order, if it is satisfied that such fireplaces can be used for burning fuel other than authorised fuels without producing any smoke or a substantial quantity of smoke.

Adaptation of fireplaces

- (2) Sub-paragraph (1) does not apply to any expenditure unless either —
- (a) it is incurred before the coming into operation of the order and with the approval of the Department given for the purposes of this sub-paragraph, or

and the adaptations in question are carried out to the satisfaction of the Department.

(3) In proceedings for an offence under this paragraph consisting of the sale of fuel for delivery to a building it shall be a defence for the accused to prove that he reasonably believed —

- (a) that the building was exempted from the operation of this Schedule or, in a case where the operation of this Schedule is limited to specified classes of building, was not of a specified class; or
- (b) that the fuel was acquired for use in a fireplace so exempted.

Suspension of smoke control

7. (1) If at any time it appears to the Department necessary or expedient to do so, it may direct that the operation of this Schedule shall be suspended or relaxed in relation to the whole or any part of a smoke control area for such period as may be specified in the direction.

Interpretation

8. (1) In this Schedule —

“**authorised fuel**” means such fuel as may be prescribed for the purposes of this Schedule;

“**conditional sale agreement**” and “**hire-purchase agreement**” have the same meanings as in the Hire-Purchase Acts 1939 to 1973;

“**fireplace**” includes any furnace, grate or stove, whether open or closed;

“**heating**” includes the heating of water;

“**necessary adaptations**”, in relation to a dwelling, means (subject to subparagraph (2)) any of the following works (whether inside or outside the dwelling) —

- (a) adapting or converting any fireplace;
- (b) replacing any fireplace by another fireplace or by some means of heating or cooking;
- (c) altering any chimney which serves any fireplace;
- (d) providing gas ignition, electric ignition or any other special means of ignition; or
- (e) carrying out any operation incidental to any of those operations;

being works which are reasonably necessary in order to make what is in all the circumstances suitable provision for heating and cooking without contravention of paragraph 3;

(2) Works which make suitable provision for heating and cooking without contravention of paragraph 3 shall not be treated as falling outside the definition of “**necessary adaptations**” by reason only that they go beyond what is reasonably necessary for that purpose, but any expenditure incurred in executing them in excess of the expenditure which would have been reasonably incurred in doing what was reasonably necessary shall be left out of account.

(3) In considering for the purposes of this Schedule whether any, and if so what, works are reasonably necessary in order to make suitable provision for heating and cooking without contravention of paragraph 3, regard shall be had to any

difficulty there may be in obtaining, or in obtaining otherwise than at a high price, any fuel which would have to be used but for execution of the works.

(4) For the purposes of this Schedule expenditure incurred in the execution of works includes the cost of any fixed cooking or heating appliance installed by means of the execution of the works, notwithstanding that the appliance can be readily removed from the dwelling without injury to itself or the fabric of the dwelling.

(5) For the purposes of this Schedule a person who enters into a conditional sale agreement for the sale to him, or a hire-purchase agreement for the bailment to him, of a cooking or heating appliance shall be treated as having incurred on the date of the agreement expenditure of an amount equal to the price which would have been payable therefor if he had purchased it for cash on that date.
