PART 1 – INTRODUCTORY

1 Short title
The short title of this Act is the Human Tissue and Organ Donation Act 2021.

2 Commencement

“the 2007 Regulations” means the Human Tissue (Quality and Safety for Human Application) Regulations 2007 (of Parliament), and

“the 2012 Regulations” means the Quality and Safety of Organs Intended for Transplantation Regulations 2012 (of Parliament),

in each case as that Act or those Regulations have effect in England, but subject to any modification provided for in an order under section 71.

(2) In this Act, —

“adult” means a person who has attained the age of 18 years;

“anatomical purposes” means purposes of teaching or studying, or researching into, the gross structure of the human body;

“anatomical specimen” means, —

(a) the body of a deceased person to be used for the purpose of anatomical examination, or

(b) the body of a deceased person in the course of being used for the purpose of anatomical examination (including separated parts of such a body);

“appropriate consent” is to be construed by reference to section 9 or 10 (as the case requires);¹

“child”, except in the context of qualifying relationships, means a person who has not attained the age of 18 years;

PART 2 — REMOVAL, STORAGE AND USE OF HUMAN ORGANS AND OTHER TISSUE FOR SCHEDULED PURPOSES

6      Interpretation of Part 2
P2004/30/12

In this Part, “excepted material” means material which has —
(a) come from the body of a living person, or
(b) come from the body of a deceased person otherwise than in the course of use of the body for the purpose of anatomical examination.

7      Authorisation of activities for scheduled purposes
P2004/30/1

(1) The following activities are lawful if done with appropriate consent —
(a) the storage of the body of a deceased person for use for a purpose specified in Schedule 1, other than anatomical examination;
(b) the use of the body of a deceased person for a purpose so specified, other than anatomical examination;
(c) the removal from the body of a deceased person, for use for a purpose specified in Schedule 1, of any organ or tissue of which the body consists or which it contains;
(d) the storage for use for a purpose specified in Part 1 of Schedule 1 of any organ or tissue which has come from a human body;
(e) the storage for use for a purpose specified in Part 2 of Schedule 1 of any organ or tissue which has come from the body of a deceased person;
(f) the use for a purpose specified in Part 1 of Schedule 1 of any organ or tissue which has come from a human body;
(g) the use for a purpose specified in Part 2 of Schedule 1 of any organ or tissue which has come from the body of a deceased person.

(2) The storage of the body of a deceased person for use for the purpose of anatomical examination shall be lawful if done with appropriate consent.

(3) The use of the body of a deceased person for the purpose of anatomical examination shall be lawful if done with appropriate consent.

(4) Subsections (1) to (3) do not apply to an activity of a kind mentioned there if it is done in relation to —
(a) a body to which subsection (5) applies, or
(b) an organ or tissue to which subsection (6) applies.

(5) This subsection applies to a body if —
(a) it has been imported into the Island, or
Section 7

Human Tissue and Organ Donation Act 2021

(b) it is the body of a person who died before the day on which this section comes into force and at least 100 years have elapsed since the date of the person’s death.

(6) This subsection applies to an organ or tissue if —
(a) it has been imported into the Island,
(b) it has come from a body which has been so imported, or
(c) it is an organ or tissue which has come from the body of a person who died before the day on which this section comes into force and at least 100 years have elapsed since the date of the person’s death.

(7) Subsection (1)(d) does not apply to the storage of an organ or tissue for use for the purpose of research in connection with disorders, or the functioning, of the human body if —
(a) the organ or tissue has come from the body of a living person, and
(b) the research falls within subsection (9).

(8) Subsection (1)(f) does not apply to the use of an organ or tissue for the purpose of research in connection with disorders, or the functioning, of the human body if —
(a) the organ or tissue has come from the body of a living person, and
(b) the research falls within subsection (9).

(10) Subsection (1)(f) does not apply to the use of an organ or tissue for the purpose of research where the use of the material would, if undertaken in England, require consent under paragraph 6(1) or 12(1) of Schedule 3 to the Human Fertilisation and Embryology Act 1990 (of Parliament) (use of human cells to create an embryo or a human admixed embryo) or would require such consent but for paragraphs 16 and 20 of that Schedule.

(12) In the case of an activity in relation to which subsection (8) has effect, subsection (11)(c) is to be read subject to any requirements which would
apply by virtue of Schedule 3 to the Human Fertilisation and Embryology Act 1990 (of Parliament) in relation to the activity if it occurred in England.

(13) The Department may by order, —
(a) vary or omit any of the purposes specified in Part 1 or 2 of Schedule 1, or
(b) add to the purposes specified in Part 1 or 2 of that Schedule.

(14) Nothing in this section applies to —
(a) the use of an organ or tissue in connection with a device to which Directive 98/79/EC of the European Parliament and of the Council on in vitro diagnostic medical devices applies, where the use falls within the Directive, or
(b) the storage of an organ or tissue for use falling within paragraph (a).

(15) In this section, the references to a body, an organ or tissue which has been imported into the Island do not include a body, an organ or tissue which has been imported after having been exported from the Island with a view to its subsequently being re-imported into the Island.

(16) This section is subject to section 16 (exceptions: post-mortems and Coroners).

8 Authorisation of activities for scheduled purposes: further provisions
S2006/4/11 and drafting

(1) The removal of an organ or tissue from the body of a deceased person for a scheduled purpose may be carried out only by, —
(a) a registered medical practitioner; or
(b) a person authorised in accordance with regulations made by the Department.

(2) Regulations made under subsection (1)(b) may, in particular, provide for a registered medical practitioner to authorise the carrying out of the removal by a person who is not such a practitioner.

(3) The removal of an organ or tissue from the body of a deceased person may not be, —
(a) carried out for any scheduled purpose unless the person who proposes to carry it out, before doing so, complies with the requirements specified in subsection (4);
(b) authorised, by virtue of regulations under subsection (1)(b), unless the registered medical practitioner who proposes to authorise it, before doing so, complies with those requirements.

(4) The requirements are that the person (and, where a registered medical practitioner proposes to authorise the carrying out of the removal by virtue of regulations under subsection (1)(b), the practitioner) must be satisfied, —

(a) either, —

(i) by personal examination of the body, that life is extinct; or

(ii) that another registered medical practitioner, by such personal examination, is so satisfied;

(b) that, if the consent of the Coroner to the carrying out of the removal is required, the consent has been given; and

(c) that the removal is authorised in accordance with section 9, 10, 13 or 14.

(5) For the purposes of subsection (4)(c), the person or, as the case requires, the registered medical practitioner is entitled to be satisfied that the removal is authorised in accordance with the section in question if, in addition to the requirements of the relevant section, the authorisation satisfies such conditions as may be specified in regulations made by the Department in relation to that section.

9 “Appropriate consent”: children
P2004/30/2 (part)

(1) This section makes provision for the interpretation of “appropriate consent” in section 7 in relation to an activity involving the body, or an organ or tissue from the body, of a person who is a child or has died a child (referred to in this section as “the child concerned”).

(2) Subject to subsection (3), where the child concerned is alive, “appropriate consent” means his or her consent.

(3) Where —

(a) the child concerned is alive,

(b) neither a decision of the child to consent to the activity, nor a decision of the child not to consent to it, is in force, and

(c) either the child is not competent to deal with the issue of consent in relation to the activity or, though the child is competent to deal with that issue, he or she fails to do so,

“appropriate consent” means the consent of a person who has parental responsibility for the child.

(4) Where the child concerned has died and the activity is one to which subsection (5) applies, “appropriate consent” means his or her consent in writing.

(5) This subsection applies to an activity involving storage for use, or use, for the purpose of —
(a) public display, or
(b) where the subject-matter of the activity is not excepted material, anatomical examination.

(6) Consent in writing for the purposes of subsection (4) is valid only if —
(a) it is signed by the child concerned in the presence of at least one witness who attests the signature, or
(b) it is signed at the direction of the child concerned, in his or her presence and in the presence of at least one witness who attests the signature.

(7) Where the child concerned has died and the activity is not one to which subsection (5) applies, “appropriate consent” means —
(a) if a decision of the child concerned to consent to the activity, or a decision of the child concerned not to consent to it, was in force immediately before the child’s death, his or her consent;
(b) if paragraph (a) does not apply —
(i) the consent of a person who had parental responsibility for the child concerned immediately before his or her death, or
(ii) where no person had parental responsibility for the child immediately before he or she died, the consent of a person, aged at least 18, who stood in a qualifying relationship to the child at that time.

10 “Appropriate consent”: adults
P2004/30/3

(1) This section makes provision for the interpretation of “appropriate consent” in section 7 in relation to an activity involving the body, or an organ or tissue from the body, of a person who is an adult or has died an adult (“the person concerned”).

(2) Where the person concerned is alive, “appropriate consent” means that person’s consent.

(3) Where the person concerned has died and the activity is one to which subsection (4) applies, “appropriate consent” means the person’s consent in writing.

(4) This subsection applies to an activity involving storage for use, or use, for the purpose of —
(a) public display, or
(b) where the subject-matter of the activity is not excepted material, anatomical examination.

(5) Consent in writing for the purposes of subsection (3) is valid only if —
(a) it is signed by the person concerned in the presence of at least one witness who attests the signature,
(b) it is signed at the direction of the person concerned, in that person’s presence and in the presence of at least one witness who attests the signature, or
(c) it is contained in a will of the person concerned made in accordance with the requirements of section 3 of the Wills Act 1985.

(6) Where the person concerned has died and the activity is not one to which subsection (4) applies, “appropriate consent” means —

(a) if a decision of the person concerned to consent to the activity, or a decision of that person not to consent to it, was in force immediately before he or she died, that person’s consent;
(b) if —
   (i) paragraph (a) does not apply, and
   (ii) the person concerned has appointed a person or persons under section 11 to deal after his or her death with the issue of consent in relation to the activity, consent given under the appointment;
(c) if neither paragraph (a) nor paragraph (b) applies and the activity is one to which subsection (7) applies, the deemed consent of the person concerned;
(d) if neither paragraph (a) nor paragraph (b) applies and the activity is not one to which subsection (7) applies, the consent of a person aged 18 or over who stood in a qualifying relationship to the deceased immediately before he or she died.

(7) This subsection applies to the following activities done in the Island unless the body is the body of an excepted adult, —

(a) the storage of the body of a deceased person for use for the purpose of transplantation;
(b) the removal from the body of a deceased person, for use for the purpose of transplantation, of any organ or tissue of which the body consists or which it contains;
(c) the storage for use for the purpose of transplantation of any organ or tissue which has come from a human body;
(d) the use for the purpose of transplantation of any organ or tissue which has come from a human body.

(8) The person concerned is to be deemed, for the purposes of subsection (6)(c), to have consented to the activity unless a person who stood in a qualifying relationship to the person concerned immediately before death provides information that would lead a reasonable person to conclude that the person concerned would not have consented.

(9) Where the person concerned has appointed a person or persons under section 11 to deal after his or her death with the issue of consent in relation
to the activity, the appointment is to be disregarded for the purposes of subsection (6) if no one is able to give consent under it.

(10) If it is not reasonably practicable to communicate with a person appointed under section 11 within the time available if consent in relation to the activity is to be acted on, he or she shall be treated for the purposes of subsection (9) as not able to give consent under the appointment in relation to it.

(11) In this section “excepted adult” means, —

(a) an adult who has died and who had not been ordinarily resident in the Island for a period of at least 12 months immediately before dying, or

(b) an adult who has died and who for a significant period before dying lacked capacity to understand the effect of subsection (6)(c).

(12) For the purposes of the definition of “excepted adult” in subsection (11) a significant period means a sufficiently long period as to lead a reasonable person to conclude that it would be inappropriate for consent to be deemed to be given under subsection (6)(c).

11 Nominated representatives
P2004/30/4

(1) An adult may appoint one or more persons to represent the adult after his or her death in relation to consent for the purposes of section 10.

(2) An appointment under this section may be general or limited to consent in relation to such one or more activities as may be specified in the appointment.

(3) An appointment under this section may be made orally or in writing.

(4) An oral appointment under this section is only valid if made in the presence of at least two witnesses present at the same time.

(5) A written appointment under this section is valid if, but only if —

(a) it is signed by the person making it in the presence of at least one witness who attests the signature,

(b) it is signed at the direction of the person making it, in that person’s presence and in the presence of at least one witness who attests the signature, or

(c) it is contained in a will of the person making it, being a will which is made in accordance with the requirements of section 3 of the Wills Act 1985.

(6) Where a person appoints two or more persons under this section in relation to the same activity, they shall be regarded as appointed to act jointly and severally unless the appointment provides that they are appointed to act jointly.
(7) An appointment under this section may be revoked at any time.
